

Illinois Competition Information

Entry Requirements

Gymnasts who enter a **State Meet** have determined their **Level** for that competitive year and may not drop back or compete at the next level unless they re-qualify for that next level.

Since we no longer use a sectional meets all gymnasts must qualify to state using a 2 judge per panel score

Out of State Scores (for mobility and State meet qualification)

Coaches are responsible for submitting out of state scores that are to be used for both mobility and/or state meet qualifications.

If scores are coming from out of state meets, please attempt to acquire a copy of the Sanction Report Form & Official USAG Score Sheet signed by the judge.

If you are unable you must supply the following people with a copy of the Score from the meets website for them to officially entered into the State Series meet.

We are tracking all gymnasts, in order to follow them correctly mobility scores must be provided in order for us to properly track the athletes, if this is no done the athletes can not be officially entered in the State Series for the level that they may have advanced to.
